

Capital Vault Incorporated – Trade & Technology Group : [Order\_TTG]  
**Equipment, Tools & Machinery Options Account** : [Order\_TTG\_A\_ETMO]

**Opportunity & Vision:**

- The TTG ETMO Account is a like the SEG TMDP Account (Tools & Machinery Development Program) in many ways, except that it deals exclusively with the acquisition and deployment of equipment, tools and machinery. The main focus with this is to enable an wide selection of machinery to be possible and available to entrepreneurs and enterprise to augment and amplify their operations in a reliable, efficient, safe, productive and profitable manner adequate to the need.
- A solid commitment is made to add value for the client in excess of only the machine. The built in capacity for upgrades, trades and additional machinery acquisitions that is aligned with the individual or companies goals and requirements is something we take with great interest, in promoting success and long term established capabilities.
- A variety of financial options is enabled and may include lease, lease buy, trade, purchase orders, related payment plans and other creative options, in addition to joint ventures, production orders, custom orders, integrated business unit development, conditional sales and acquisition contracts, agreements and entities are possible to work for machinery requirements, Member/Co-trustees, and even for the establishment of official supplier/OEM markets advantageous for members who may have a contract or need specific machinery to improve operations in some way.

**Explore & Discover:**

- Fixed and convertible value, fixed and variable compensation and terms up to 5 years, fixed and variable distribution frequency, plus exchange options and conditional acquisition rights and creative compensation kicking in after production and sales are en route with outstanding conversion premiums.
- Revenue and conversion features, general and unit profit sharing, integrated joint venture for contract procurement and fulfillment are useful options available with this account.
- Any resources here can be utilize to cash out, exchange, redeem or acquire products and services available through the CVI-Options, and as much as possible, integrated business units and even arrangements with non-related entrepreneurs and enterprise. It is highly advantageous to have assets and resource in trust with a built in private economic trading system to make more things possible, interesting, fun and “sporty”.
- General and specialized machinery portfolios are available, direct assets and resources to a particular machine. Contributions may be converted, redeemed, exchanged or otherwise acquired directly or indirectly, for those who need it, plus various revenues and bonus, VIP and all that fun and down to earth stuff we are famous for.
- We also have diversified segments by industry, type of machine and more, in addition to the expanded Portfolio & Series of a specific industry. Contributions may also be made in actual machinery where it can be put to good use.

**Advance to** : TTG ETMO Portfolio [TTG\_P\_ETMO] : [Order\_TTG\_P\_ETMO]
