Trade & Technology Group – TTG CBO Notes

Custom Build Options - dynamic, practical and rewarding options
for prospective customers, developer and the custom builder, contractor or supplier

When we are very focused and have a specific product in mind to build that people can identify with quickly and agree in essence with the idea, organization, people, technology, products and services, we have organized Custom Build Options. This is for people who want to be part of the action right now, who know what they like and want, who are decisive and solidly confident in the direction they choose, like to converge resources, amplify the collective enthusiasm and energy with rare opportunities, help accelerate progress, be involved, optimize potential, exercise options and benefit from amazing advantages and rewards.

Contributions to the Custom Build Options are:

Dedicated to total resources and logistics to make it happen and utilized for prototype, super prototype, custom production and modified custom build products by experienced expertise with resources, co-development and infrastructure to make the job easier for everyone. This can be integrated with general, specific conventional and advanced technology, products and product line and may involve any number of custom or designated components as part of the total CBO package.

Unified and integrated with various types of proposals and contracts, purchase orders, joint ventures, business combinations or co-development with those that have resources, interest and are dedicated to the project where appropriate. This works with and for the custom builder, contractor or supplier and the customer, in addition to those who desire to contribute in some way either directly or indirectly. This enables a lot more combinations of opportunity, wealth and capacity to be realized, in addition to the features, benefits, VIP bonus and much more in very exciting, personal and rewarding and experience for everyone. You can tell the excitement by the eyes.

Market & Product Diversification:

Primarily focused on custom build high quality products that are precision made having outstanding design elements, performance spec's, with built in excellence and value offered by people who take great pride in their work dedicated to their trade, craft, profession and zone of expertise. Now, does that sound like someone you want working for you?

Offered in co-operation with Capital Vault Incorporated and the custom builder, contractor or supplier (who may also be an Integrated Business Unit or a Business Options Agent, generally an entrepreneur or company), for the future customer (who is or will be or CVI-Member/Co-Trustee).
