Winston Churchill famously said:

"If you will not fight for the right when you can easily win without bloodshed; if you will not fight when your victory will be sure and not too costly; you may come to the moment when you will have to fight with all the odds against you and only a small chance of survival. There may even be a worse case: you may have to fight when there is no hope of victory, because it is better to perish than to live as slaves."

Now advanced forward to present time...

Canada needs the real Canadians to defend all the good things we have worked together to achieve, and to undo all the damage that has been done, is being done right now and will continue to be done and only get worse if good people do nothing.

Too much sports, entertainment and being busy is like having no one at the wheel on cruise control. We can easily default to rogue government, dictatorship, censor, abuse, selling out the country, outright lies, deceptions, treason and betrayal, with diabolical agendas and "business as usual" the frenzied systematic pace of dismantling and destruction of ideals, values and national assets. These things cannot be, they must never be. Those who are part of the problem have a built in self destruct mechanism. Yes, they will and can do a lot of damage, the best thing they can do is resign or accept a "Cease and desist order", how is that for democracy?

Not paying attention, being too busy or not asserting ourselves to stand up for what is right and fight against those things that are wrong. We must do more than just stand on guard for Canada, we must defend it from all those people that seek to destroy it. Perhaps paying attention is a very good thing. Pay attention and notice who is doing what. Suddenly you may notice we really are right now at war, that someone is really waging war and you do not even know who the real enemy is, what they are doing and how they are doing it.

You might not know how compromised various agents are, or that you do not have secure supply lines, or your industrial infrastructure is being wiped out...or that you are not as free as you think you are, in fact you have never been so close to being totally enslaved as you can be in your entire life, as you are now at this point. Your freedom of choice can save you, you can make a difference. You can choose spiritual values, a spirit of family and community, nation building ideals and endeavours, you can choose to defend your self and this country.

Increase your perspective, awareness, perception, understanding, read between the lines. Find out the truth and what is true for you, what you believe in, trust in and have confidence in, what you are willing to get involved in. Attempt co-operation, productivity, savings, investment, Made in Canada...get rid of the poison in your environment, know the enemy, secure your allies, leave nothing to chance, make no excuse, offer no apologies...fight hard!
