The Made in Canada Renaissance is full of secrets.

It does not exist on a computer that can be hacked.

You can't steal it, counterfeit it or stop it.

It exists in people with heart, soul and conscience and requires the ultimate decryption, unlock and enabling code.

It involves, soul groups, re-incarnation and multi-dimensional physics.

People that do astral time travel know that time is not linear.

The past, present and future exist right now.

There is a lot more going on than what meets the eyes.

The end of the world has been cancelled due to lack of interest.

We have better things to do than experience multiple extinction level events.

The Made in Canada Renaissance will change everything.

The 11 x 13 anomaly proves anyone can shift the space time continuum and create or destroy something that did not exist before in its previous state.

We have super-computing neurons that work 24/7.

Neuro scientists estimate we each have about 60-100 billion neurons, each capable of processing 100 million bits of information per second, this is much more and a lot faster than all the computers in the world.

We can access meta-physical realms and we also can talk with God.

We can discover the secrets of the universe and know what the big picture is.

We can free ourselves from limiting beliefs and dysfunctional behaviours.

We can believe in truth or lies. Violence, war and destruction will solve nothing.

We are here to do, to be, to achieve and experience certain specific things.

We each need to discover our true purpose and why we are here.

We can learn to co-operate and build great things together.

We can each choose to express the best of who we are.

We can choose to make a difference – it is well within our considerable power.

It is time to wake up and experience the renaissance.

It is time to express the secrets of the heart and soul.
