

## Capital Vault Incorporated - Portfolio Development P Business Options P

- Specific Business Options that are useful to generate or improve enterprise capabilities, factory production, showroom facilities, resources and expansion, including product line development, marketing, sales and logistics, or anything that is a means to the end result, with various segmented opportunities that can capture, retain and maximize value, increase options and opportunity with greater acceptance of challenge and reward.

Also, since we share concerns with our members, we can utilize or promote these business options, or be in the group that makes it possible and available to others. Various business and financial transactions are possible that add liquidity to any type of portfolio, turnover, express and dedicated resources for specific types of requirements and other excellent aspects to keep accountants busy. Furthermore, since you probably haven't heard the word prudent for a while, we can make a more effective and prudent use of innovate cash and business management tools that enables a greater degree of participation in a mutually beneficial and co-operative environment. This is a good feature, very doable and practical in a private membership social network of people who enjoy being part of a solution contributing in a way that is customized for their purpose, and at least excellent in many respects to fulfill their personal and business requirements, goals or desires.

Some business options are:

- Production & Inventory Finance:
- Factoring of Accounts Receivables:
- Equipment, Tools & Machinery leasing/deployment:
- Project Management:
- Infrastructure & Logistics package:
- Design, Engineering & Architectural plan:
- Conditional Sales and/or Acquisition Contracts:
- Special Order:
- Purchase Order:
- Strategic Acquisition:
- Special Projects & Opportunities:

The basic idea:

- Zoom in on the most relevant details in a crystal clear way and zoom out to provide a much bigger picture if desired or needed. Like stepping back with a magnifying glass in your hand.
- Build a responsive capability for all existing and potential groups, members, entrepreneurs, enterprise and associations, with national and local economic and industry concerns.
- Ease of involvement with a more streamlined approach to decisions with the most relevant intel and options for various environments, reduced information overload and time deficits.
- Member survey response, the compensation program, generating mutual consensus and action based on factors that like to happen or go together.
- There is nothing quite like having a few amazing options eh!
