

## Capital Vault Incorporated – CVI\_Membership\_Options : CVI-BDG

CVI-Business Development Group [Order\_BDG] :

The first step in the right direction with Capital Vault Incorporated is confidently choosing to work together to create solid long term relationships and prosperity that begins with the CVI-Business Development Group. This is a productive, profitable and enjoyable environment for members to learn, grow, become more involved, optimize opportunities, progress more in knowledge, expertise, wealth, assets, business development ability, personal and professional development and to participate in a dynamic range of CVI-Options depending on your interests, resources, requirements or capacity all related to private business purposes.

In enabling greater understanding with others, it is essential to have a good awareness of the Elements and the Essence of Operations and also how opportunity, challenge, reward, new wealth and revenue stream generation are all possible by a diverse and integrated universe of potential to choose from. Find out more: About CVI

You can proceed at your own pace, focus on what you like, want or need the most, become more active as you expand your awareness and capacity, achieve success and satisfaction from decisions and create an alternative everyday experience step by step, more in line with your values, ideal lifestyle with the many opportunities available to you.

In personal and professional growth, we can explore, experience, learn, grow, develop and express the best of who we are, as we build upon a solid foundation and enjoy an improved quality of life in the process, we can share in challenging and rewarding experiences as we make valuable contributions to building an alternate reality we envision with the kind of pride, satisfaction and happiness that can be ours by choice and mutual action.

**First action plan** with your membership is being a **Business Associate** with a **Business Associate Account** and also utilizing the BDG Unified Account. These accounts are included to get started as you familiarize yourself with all the CVI-Options. Upon reviewing the **Compensation Program**, a member makes contributions to their account by response and active involvement through Account and Portfolio sign-up, questionnaires, pop quiz and surveys, a bonus for recruiting and sponsoring other members, referrals and other revenue streams throughout the CVI-Options. This should be a fun, learning and rewarding experience. Time to become aware and familiar with the CVI-Options helps increase your speed and ability to make high quality pro-active decisions concerning all kinds of great opportunities. At any time, other membership options are available. With this system in place, a chance to review, plan, make decisions, allocate resources and enjoy all the advantages, compensation and options that are included is conveniently presented.

Additionally, there are several accounts with special programs, offers, promotions, compensation, opportunities and possibilities that may be of interest to you. The **Business Options Account**, for those that want to pursue business, deal making and all kinds of possibilities in a local, regional or national scale involving the CVI-Options. Although this account enables those capabilities, and nothing stops the member for taking initiative or acting in accordance with those provisions, the **CVI-Personnel Development Program** is available and offered. This is a more comprehensive study of everything we are doing with CVI and more. Reading, practice and real world tasking is par for the course, with pop quiz, surveys and questionnaires at a more advanced level generating increased knowledge, awareness, perception, depth of understanding and competence, adding value in every way possible. This establishes a more solid foundation to build on, either for your personal, business and professional endeavours or in becoming CVI-Personnel as a **Business Options Agent**, a **CVI Consultant** or even as a Promoter and Finder.

Our intention and focus is directed to national expansion plans at a provincial and territory level, as well as regional, city and small town level, that CVI-Personnel may co-ordinate unified efforts with greater resources, office facilities and conduct any number of business and financial transactions except for those listed in the Public Notice, unless of course, the member has secured registration and credentials from governing institutions as required. Business Options may be promoted by the member without the office in place and may progress with the CVI-Personnel Development Program at their own pace. This can lead to an amazing world of opportunities and be part of an even more dynamic team. The private perspective exceeds public limitations, conventional thinking and is directed to the alternate reality possible by choice and has a fantastic range of topics in great detail.

The **Entrepreneur & Enterprise Account**, if you are an entrepreneur or operate an enterprise, would like to be, or even if you like to promote this portfolio, this has a lot of exciting and rewarding possibilities to take advantage of especially in ground floor opportunities and may provide the kind of resources helpful at the early development stage.

The **Co-operative Group Account** if you are a member of a co-operative any where, and like our mutually beneficial endeavours that you may also promote to others, including members of your co-op, this is a good option to consider. We realize your interest and affinity to co-operative social networks and this is a great thing, we would like to add a massive portfolio of opportunity with the CVI-Options and go beyond what is available only through your own existing co-op membership. We would like to work with you to build great things together. We have already developed special programs, accounts, portfolios, products and services, special promotions and compensation for individual members and your co-op, and there is much more work that needs to be done.

CVI is not a true co-operative but does act in a mutually co-operative and beneficial manner, and exceeds limitations of co-op entities, which are good and useful as organized for a specific purpose and operations. Many of the things we believe in and do are very much in line with co-operative ventures and belief systems, education, progress, democracy, freedom of choice, an effective vote (we don't like those class of shares out voting 100:1 either) and with a little twist of democratic consensus by the participating members. With CVI a member does not need everyone's approval or a specified majority, they are pro-active, self-directed and go as far, as fast and as much as they want in their direction in line with their purpose, true hearts desires, goals and mission. We share in common much more than values, ideals, mission and the primary operational mandate of Made in Canada. We encourage members in multiple dimensions of learning, growth, thinking, doing, being and having, not to just act for themselves, but also accept personal responsibility and make valuable contributions to Canada, industries, their community in every way possible others in their social environment.

In a class of it's own is the **Student Account**. If you are or have been a student or will resume studies, this presents some great possibilities to save and make money through your educational career, plus going beyond with integrated job and career prospects with the whole CVI-Options that are yours to discover and explore. Part of our plan is to help minimize student debt that is often incurred in the process of getting your education, part of the plan is to save and make you more money conveniently as your main focus is education. Additionally, provisions for opportunities and resources to work at a long term plan and handle everyday living with reduced stress and time deficits. Another part of the plan, which is also for everyone, is to maximize intellectual capital, investment options and ways of building solid and enjoyable careers when you are starting out, with the ideal dream jobs more possible than ever before. We have great ways to save money, earn money, get involved with the CVI-Options and build long term relationships that you can have challenge, reward and satisfaction in making good solid decisions.

**Second action plan** is to review the accounts and options and notice what you like. Make an initial plan with the big picture in mind as well as the smaller steps along the way that are important for you at this time in your life. It will be easier to make a plan with values, goals, ideals and the things that are most necessary and desired.

**Third action plan** is have a strategy and make a plan, when you can, review more of the exciting CVI-Options, accounts and portfolios and notice what appeals to you the most, once again, but at a different level, all these things should help, define and redefine more of what you are looking for, need, would like to do, acquire, be, achieve or experience. Some things in your original plan might change or be revised, your perspective will change as you will see and know much more and in greater detail. This process will continue. Make a plan, execute the plan with your resolution to succeed. Making a course of pro-active decisions is essential. You can always adjust your course, everything here is designed for maximum options, unless there are some limitations or special conditions, as these are very focused and dedicated.

What is important is to make a decision and actually take action, even if it is a little, sign up to a program, go in the direction that you choose. You will discover your freedom, power, perspective and opportunity to express the best of who you are. This endeavour is just as much about personal, profession and spiritual development as it is for financial and technological power and prosperity, we cannot have one without the other. We hope that you will find a whole new dimension, a positive, uplifting, cheerful, optimistic, constructive, encouraging and dynamic environment unlike any other. We are sure that you will learn more as we work to build great things together and long term relationships that will forever change the course of history as we choose to build and experience that alternate reality.

#### **Fourth action plan**

For those that want to get going on something right away, there is a fantastic range of options to pick from, including accounts, portfolios, special promotions, compensation programs, and all kinds of ways to make, save and keep your money, increase the quality of life, things to lose sleep over and more stuff to get your heart in shape with. You can also check out various relevant options and actively get involved in a way that seems good to you and help build a better Canada. Focus on what you like and want, promote Made in Canada and even the CVI-Options. Various levels and types of compensation are available. Also, the Unified Account and the Unified Portfolio Options provide specific sign-up, pro-active, involvement and orders, as a relevant, comprehensive, solid, rewarding option with far reaching impact.

For those already established in their careers, including those who might want to change careers to something more challenging, rewarding and in line with their values, purpose and desires, we have a wide array to pick from with the CVI-Options. A considerable focus is placed on professional expertise, trades, technology, skill, talent and the ability to get things done with integrity in all that we do and all that we are. We need a lot more people to get involved and we hope this is the most exciting, dynamic and alive opportunity you have ever seen and can't wait to get involved with. It is possible that the time to make a difference and capitalize on your personal life and professional experiences with greater income, intellectual capital optimization and a new environment is beginning to take shape now. It would be amazing and magical if we could get to all come together and work out providentially.

Much of what we do with CVI is about technology, productivity, people, intelligence and inventing or innovating solutions so that we can build great things together. Regardless of the technological or financial power anyone may have, a solid character and industrious work ethic is valuable. We are happy to promote and encourage all members in their endeavours and decisions as they accept personal responsibility and live in accordance with their ideals to make a solid and long lasting contribution in their own unique way, to their industry, profession, associations, community, to this country and the world.

It will take time to review all the CVI-Options, but the opportunity, reward and excitement of it is definitely worth it, plus, it will be a good start to get going, make progress, make new goals and take action. Your knowledge and awareness of the CVI-Options may be passed on to others who may benefit from useful, practical and dynamic solutions in some way, even if you do not utilize various options, as everyone is different.

We hope you like the down to earth way of doing things and personal style, and all the great options we have for you that are included with the Business Development Group Membership and offer vision and opportunities to explore, learn, grow, promote, sponsor, build and develop all kinds of amazing possibilities as we continue to build a long term mutually beneficial relationship with even greater potential, but first, we need to get started. This might be the hardest step to take, it is the most important one, as you exercise your personal freedom of choice and step in the right direction and creating an alternate reality! The future can be a whole lot better than what it would otherwise be.

Vision, thinking, planning and action, with a focus on what you like and want is essential. Each member is fully capable to exercise their rights and equivalent responsibilities and make solid measurable progress in their individual goals, as well as valuable contributions in their trade, profession, family, community, local government and as much as possible to some of the many CVI-Option available within a more defined and powerful nation building program.

We hope that your discovery with Capital Vault Incorporated is like having a treasure map, setting sail to new horizons and finding buried treasure in some far off land, all right here in Canada. There is plenty to be excited about and involved in.

Finally, take a time out, let some things sink in, rest your eyes, close them if you want to and envision the kind of world and future you would really like, and specifically concerning Canada as the land of opportunity. We hope that we can find ways to make that possible.

Cheers, to all the brave souls who step forward and advance in the direction of their dreams, their life's purpose and true hearts desire, and especially those who are dedicated to the mission, the universe of possibilities for you is a whole lot bigger and better than ever before.
